## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 11<sup>th</sup> 2007 has been entered.

### ***Response to Amendment***

2. Applicant's amendment filed May 11<sup>th</sup> 2007 has been entered and made of record.

3. Applicant has amended claims 1, 3, 4, 6, 8, 20, 21, 24, 25 and 27. New claims 28-30 have been added. Claims 2, 5, 7, 9-19, 22-23 and 26 have been cancelled. Applicant agreed to cancel new claims 28-30. Claims 1, 3, 4, 6, 8, 20, 21, 24, 25 and 27 remain pending.

4. Applicant's remarks in view of the newly presented amendments have been considered and are found persuasive at least with regard to independent claims 1, 20, 24 and subsequent depending claims. New Claims 28-30 originally presented with the response are hereby cancelled with Applicant's permission.

***Examiner's Amendment***

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Rober J. Brill Reg. No. 36,760 on June 4, 2007.

The application has been amended as follows:

Claims 28-30 are cancelled with Applicant's permission

***Allowable Subject Matter***

6. Claims 1, 3, 4, 6, 8, 20, 21, 24, 25 and 27 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 20 and 24 have been amended to include the limitations of detecting a feature within an image, comparing the feature with previously detected features to find a match and once a match is determined, querying the user to identify said detected feature and provide identifying information for the feature and then categorizing and presenting grouped images according to such features. The reference to Shaffer discloses in detail using both implicit image features and explicit metadata to categorize cull and sort images for presentation to a user, but does not teach or fairly

suggest querying the user in the manner now claimed. No other found prior art of record teaches or fairly suggests this method.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
